CAREER OVERVIEW

Enthusiastic software developer with hands-on experience in web and application development. Skilled in building scalable solutions, developing APIs, and creating responsive user interfaces. Familiar with modern technologies including JavaScript frameworks, databases, and AI-integrated applications. Strong problem-solving abilities with a focus on efficient and user-centric solutions.

TECHNICAL SKILLS

- Languages: Java, C, Python (Basic)
- Frontend: HTML, CSS, React.js
- Backend: Node.js, Express.js
- Databases: MongoDB, MySQL
- Tools: Git, GitHub, Android Studio
- Technologies: MERN Stack, MEAN Stack

LANGUAGE

Tamil

English

COURSE

Java Full Stack Development

CERTIFICATIONS

- Full Stack Development Certification – Wipro
- Oracle Certified Java Foundation – Oracle Academy
- C Programming Certification – SkillRack

EXPERIENCE & TRAINING

Mar 2023 - Apr 2023

KitKat Software Technologies, Coimbatore

Android App Development Intern

- Developed Android application modules using Java
- Designed mobile UI screens and improved usability
- Collaborated with team on real-time client projects
- Used Git for version control and collaboration

08 Sep '25 - 12 Sep '25

MACVEL Software Solutions

MERN Full Stack Development Training

- Completed intensive hands-on training in MERN Stack
- Built full-stack applications with REST API integration
- Gained practical experience in frontend, backend, and database development

EDUCATION

2022 - 2026

B.Tech – Information Technology

Kamaraj College of Engineering and Technology
CGPA: 7.81

2021 - 2022

Higher Secondary (XII)

PKN Higher Secondary School
71%

2019 - 2020

Senior Secondary (X)

PKN Higher Secondary School
70%

PROJECTS

LawKnot – AI-Powered Legal Assistant (MERN + Flask)

- Developed a full-stack legal document analysis and Q&A application.
- Integrated Flask AI with REST APIs using Node.js and Express.js.

Game Info Web Application (MERN)

- Developed a video game web app with search, filtering, and authentication.
- Built using React.js, Node.js, Express.js, and MongoDB.

Digital Disaster Modeling (MERN + Blender + ML)

- Converted 2D blueprints into 3D models using OpenCV and Blender.
- Implemented disaster simulation and ML-based damage analysis.
